- b) Claim 18, change the dependency from "4" to --5--.

Allowable Subject Matter

2. Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reasons for the indication of the allowability of claims 1-20 are:

Regarding claims 1-19, the prior art does not teach or fairly suggest in combination with the other limitations an electrical outlet box having a base member, a middle member and an outer member, wherein said outer member forms a first rotational cover unit capable of rotation in a first direction with respect to said assembly; and said outer member and said middle member forms a second rotational cover unit capable of rotation in a second direction with respect to said assembly.

Art Unit: 2831

Regarding claim 20, the prior art does not teach or fairly suggest in combination with the other limitations of an electrical outlet box having a base member, a middle member and an outer member, wherein said outer member forms a first rotational cover unit capable of rotation in a first direction with respect to said assembly; said outer member and said middle member attached rotatably to said assembly to form a second rotational cover unit capable of rotation in a second direction with respect to said assembly.

These limitations were found in claims 1-20, and are neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
